REMARKS

1. Status of Claims

Claims 1-15 were pending in the Application. Applicants have amended claims 1, 4 and 13. Applicants respectfully requests entry of the above amendments and consideration of the enclosed remarks. Applicants submit that no new matter is added. Accordingly, claims 1-15 will remain pending in the application.

2. Objection to the Abstract

On page 2 of the Office Action, the Examiner objected to the Abstract of the Disclosure. Applicants have amended the Abstract of the Disclosure and respectfully request that the Examiner withdraw the objection. Similarly, applicants have amended the specification to provide the serial numbers and status of the patent applications listed on the first page. Accordingly, Applicants respectfully request that the Examiner withdraw the objection.

3. Rejections under 35 USC § 102

On page 2 of the Office Action, the Examiner rejected Claims 1-9 under 35 U.S.C. 102(e) as allegedly anticipated by either Call, et al., (U.S. Published Patent Application No. 2002/0124664A1) or Lopez, et al. (U.S. Published Patent Application No. 2003/0058099A1).

Applicants respectfully traverse the rejection. Initially, Applicants respectfully submit that Call '664 does not qualify as prior art under 35 USC 102(e).

However, solely in order to expedite prosecution, Applicants have amended claim 1 to recite: a filtered transition area downstream of the sanitizer module.

Accordingly, Applicants respectfully submit that the rejection is moot and respectfully submit that claims 1-3 are patentable over the cited reference.

Accordingly, Applicant respectfully requests that the Examiner withdraw the rejection to claims 1-3.

4. Rejections under 35 USC § 103(a)
